ON JOB TRAINING (OJT)

TITLE: ON THE JOB TRAINING EXPERIENCE REPORT

CLASS: M.Sc.I.T. – Part I (2025-26)

SEMESTER: II

SUBMITTED BY (Name): Ahmed Dilshad Shaikh

SEAT NUMBER: MIT251009

Under the esteemed guidance of Asst. Prof. Kirti Yadav

**SUBMITTED TO
DEPARTMENT OF INFORMATION TECHNOLOGY**

**Ms. Kirti Yadav
Subject In-charge**

**Mr. Mukesh Sharma
Coordinator**

**Dr. Sandeep Poddar
I/C Principal**

For Partial Fulfillment for Degree of
Master of Science (Information Technology) in 2025-26

ACKNOWLEDGEMENT

I would like to express my sincere gratitude to my institute for providing me with the opportunity to undertake On Job Training (OJT) as a part of the M.Sc. IT Part-I Semester II curriculum. This opportunity has been instrumental in enhancing my practical knowledge and industry exposure.

I am highly thankful to **DevMynt** for giving me the opportunity to work as a Software Developer Intern, where I gained valuable hands-on experience in a professional environment. This training helped me understand real-world full-stack development processes using the MERN stack (MongoDB, Express.js, React.js, Node.js), including frontend development, backend API development, and database management.

I would also like to express my heartfelt appreciation to my mentors and team members at DevMynt for their constant guidance, support, and encouragement throughout the training period. Their expert advice and constructive feedback significantly contributed to improving my problem-solving abilities and technical skills.

Furthermore, I extend my gratitude to my faculty coordinator and the institute for their continuous support and guidance during the successful completion of my OJT and this report.

Finally, I am thankful to everyone who directly or indirectly contributed to making this learning experience valuable and enriching.

INTRODUCTION ABOUT ORGANIZATION

About Organization – DevMynt

DevMynt is an IT services and software development company that focuses on building modern web applications and providing innovative digital solutions. The organization specializes in full-stack development, working with technologies such as the MERN stack (MongoDB, Express.js, React.js, Node.js) to develop scalable and efficient applications.

DevMynt operates in domains such as web application development, CRM systems, and E-commerce platforms. The company emphasizes practical implementation, real-time project exposure, and hands-on development experience, enabling interns and developers to work on live projects using industry-relevant tools and technologies.

The organization provides opportunities to work on real-world projects involving frontend development, backend API development, database management, and third-party integrations. This helps in building strong technical skills, problem-solving abilities, and a clear understanding of modern web application architecture.

During my association with DevMynt, I gained valuable experience in full-stack development. I worked on projects such as CRM and E-commerce applications, where I developed user interfaces using React, built RESTful APIs using Node.js and Express, and managed data using MongoDB. I also implemented payment gateway integration using Razorpay and deployed applications using platforms like Vercel and Render.

Through this training, I developed practical skills and gained insight into how real-world software applications are designed, developed, deployed, and maintained in a professional environment.

OBJECTIVES

The main objective of this On Job Training (OJT) was to gain practical exposure to real-world software development using modern technologies. The training aimed to enhance my understanding of full-stack web development using the MERN stack and to bridge the gap between theoretical knowledge and industry practices. It also helped me develop problem-solving skills and understand how real-world applications are built, deployed, and maintained in a professional environment.

- To gain hands-on experience in full-stack development using MongoDB, Express.js, React.js, and Node.js.
- To understand real-world development workflows including frontend, backend, and database integration.
- To work on live projects such as CRM and E-commerce applications.
- To learn integration of third-party services like Razorpay payment gateway.
- To understand deployment of applications using platforms like Vercel and Render.
- To improve communication, teamwork, and professional work ethics.

ROLES & RESPONSIBILITIES

During my internship at **DevMynt**, I worked as a Software Developer Intern and was involved in various tasks related to full-stack web development. My responsibilities included working on both frontend and backend development, understanding project requirements, and implementing features accordingly. This experience helped me gain practical knowledge of real-world application development and improved my technical as well as professional skills.

I actively contributed to developing applications such as CRM and E-commerce systems, where I worked on user interface design, backend logic, and database management. I also gained experience in integrating external services and deploying applications to production environments.

- Developed and enhanced frontend components using React.js to create responsive and user-friendly interfaces.
- Built and integrated RESTful APIs using Node.js and Express.js for handling business logic.
- Performed database operations such as data storage, retrieval, and updates using MongoDB.
- Worked on real-time projects like CRM and E-commerce applications to understand practical implementation.
- Implemented authentication and data management features in web applications.
- Integrated Razorpay payment gateway for secure and efficient online transactions.
- Deployed applications using platforms like Vercel and Render for live usage.
- Identified and fixed bugs, and optimized application performance for better efficiency.
- Collaborated with team members and followed coding standards and best practices.

OJT UNDERTAKING

Student Name	Ahmed Shaikh
Current Address	Flat no.405, Azad Building, Dindoshi Depot, Goregaon East Mumbai 400097
Residence Address	Flat no.405, Azad Building, Dindoshi Depot, Goregaon East Mumbai 400097

PAN Card	
Overall GPA	
Mode of Internship	Online / Remote
I confirm that I agree with the terms, conditions, and requirements of the OJT Policy. _____ Student Signature Date : _____	
I confirm that the student has attended the OJT orientation, and he has met all paperwork and process requirements to participate in the OJT programme and has received approval from his mentor. _____ Coordinator Date : _____	

RESUME

Ahmed Shaikh

Software Developer

✉ theahmed619@gmail.com ☎ +91 7718972116 📄 Portfolio 📍 Goregaon, Mumbai

🌐 theahmed619 🌐 ahmedskh

PROFILE

Full Stack Developer with experience in building scalable web applications using modern frontend and backend technologies. Strong focus on clean code, performance, and efficient problem-solving.

EDUCATION

MSC-IT 2025 – Present | Mumbai University
Smt. Parmeshwaridevi Durgadutt Tibrewala Lions Juhu College, Andheri East

BSC-IT, 9.3 CGPA 2022 – 2025 | Mumbai University
Smt. Parmeshwaridevi Durgadutt Tibrewala Lions Juhu College, Andheri East

HSC, 82% 2021 | Maharashtra
Bhavans College, Andheri West

SSC, 71% 2019 | Maharashtra
Marol High School, Andheri East

SKILLS

- **Frontend:** HTML, CSS, Bootstrap, TailwindCSS, React JS
- **Backend:** Java, Spring Boot, ASP.NET/ADO.NET, Node/Express JS, NextJS
- **Database:** PostgreSQL, MongoDB
- **Tools:** GitHub, Postman, Power BI

PROFESSIONAL EXPERIENCE

DevMynt 🌐, Software Developer 12/2025 – Present

- Developing full-stack web applications using the MERN stack (MongoDB, Express, React, NodeJS) and NextJS.
- Integrating AI-driven features and building modern & responsive UI

Perceptive Solutions 🌐, Software Developer Intern 07/2025 – 09/2025

- Designed and developed ETL workflows using SQL Server Integration Services (SSIS) for automated data migration and synchronization between multiple servers.
- Implemented CRM modules for customer data management, including lead tracking, automation, and reporting.
- Built data validation and email alert systems using SSIS Script Tasks and Outlook integration.

To:

Dec 1, 2025

Ahmed Shaikh
Dindoshi, Goregaon,
Mumbai 400097,
Maharashtra

Dear Ahmed Shaikh,

We are pleased to offer you the position of Software Developer Intern at DevMynt. Your skills and technical knowledge will be a valuable addition to our development team..

Details of the Offer:

- Position: Software Developer Intern
- Start Date: December 20, 2025
- Work Location: Remote
- Salary: Competitive package as per company standards

We look forward to your contribution and growth with us. Please confirm your acceptance of this offer.

Sincerely,

Kabir KM

Senior Software Developer

MONTHLY REPORT – JANUARY 2026

PROGRESS REPORT FOR THE MONTH OF JANUARY 2026		
Organization Name	Date of Report	Student Signature
DevMynt	30/01/2026	
Name of Student	Ahmed Shaikh	
Reporting Person Name and Designation	Kabir, Senior Software Developer	
Reporting Person's Contact Details	91206 28997	
Job Description and Responsibilities	During this month, I worked as a Software Developer Intern where I contributed to full-stack web development using the MERN stack (MongoDB, Express.js, React.js, Node.js). I was involved in developing and optimizing frontend components using React, building and integrating RESTful APIs using Node.js and Express, and handling database operations with MongoDB.	
Technology Used during Internship	JavaScript Node JS React JS MongoDB VS Code	
Overall Learning Experiences	Learning Experience	I strengthened my understanding of full-stack development and improved my ability to build scalable web applications.
	Skills Learnt	☐ Frontend Development (React) ☐ API Development ☐ Database Handling
	Knowledge Acquired	- Understanding of MERN stack architecture - Client-server interaction and API flow
Personal SWOC Analysis during Internship	Strength	☐ Quick learner ☐ Strong analytical thinking ☐ Good problem-solving skills
	Weakness	☐ Sometimes overthink solutions ☐ Limited real-world experience (improving through practice) ☐ Time management needs improvement in complex tasks ☐ Tendency to focus too much on perfection
	Opportunities	Gained hands-on experience with real-world projects
	Challenges	Debugging application issues and managing backend logic

MONTHLY REPORT – FEBRUARY 2026

PROGRESS REPORT FOR THE MONTH OF FEBRUARY 2026		
Organization Name	Date of Report	Student Signature
DevMynt	25/02/2026	
Name of Student	Ahmed Shaikh	
Reporting Person Name and Designation	Kabir, Senior Software Developer	
Reporting Person's Contact Details	91206 28997	
Job Description and Responsibilities	During this month, I worked on real-world projects such as CRM and E-commerce applications. I developed dynamic user interfaces using React and handled backend services using Node.js and Express. I also performed database operations using MongoDB and implemented features like authentication and data management.	
Technology Used during Internship	JavaScript Node JS React JS MongoDB JWT VS Code	
Overall Learning Experiences	Learning Experience	I gained practical experience in building real-world applications and managing complete full-stack workflows.
	Skills Learnt	☐ Full-stack Development ☐ CRUD Operations ☐ Problem Solving
	Knowledge Acquired	☐ API integration in applications ☐ Insight into industry-level project development
Personal SWOC Analysis during Internship	Strength	☐ Adaptable to new technologies ☐ Ability to work independently and in a team
	Weakness	Time management in complex modules
	Opportunities	Worked on live projects like CRM and E-commerce systems
	Challenges	Handling backend logic and debugging errors

MONTHLY REPORT – MARCH 2026

PROGRESS REPORT FOR THE MONTH OF MARCH 2026		
Organization Name	Date of Report	Student Signature
DevMynt	15/03/2026	
Name of Student	Ahmed Shaikh	
Reporting Person Name and Designation	Kabir, Senior Software Developer	
Reporting Person's Contact Details	91206 28997	
Job Description and Responsibilities	In this month, I worked on advanced features such as payment gateway integration using Razorpay API. I also deployed applications using platforms like Vercel and Render. Additionally, I worked on debugging, performance optimization, and improving overall application functionality.	
Technology Used during Internship	JavaScript Node JS React JS MongoDB JWT Vercel VS Code	
Overall Learning Experiences	Learning Experience	I gained hands-on experience in deploying full-stack applications and integrating third-party APIs.
	Skills Learnt	☐ Payment Gateway Integration ☐ Deployment (Vercel, Render) ☐ Debugging & Optimization
	Knowledge Acquired	☐ Understanding of production-level deployment ☐ API integration for Payment Gateway ☐ Performance optimization techniques
Personal SWOC Analysis during Internship	Strength	☐ Quick learner ☐ Strong analytical thinking ☐ Good problem-solving skills ☐ Adaptable to new technologies ☐ Ability to work independently and in a team
	Weakness	Tendency to focus too much on perfection
	Opportunities	☐ Gained hands-on experience with real-world projects ☐ Exposure to industry-level tools and technologies ☐ Improved technical and analytical skills ☐ Enhanced career readiness and confidence
	Challenges	Debugging deployed applications and meeting deadlines

STUDENT FEEDBACK OF OJT

Student Name : Ahmed Shaikh Date : _____Organization Supervisor : Kabir Kh Title : Team LeaderSupervisor Email : kabirdevmynt@gmail.com OJT is : ☐ Unpaid ☐ Paid _____Organization : DevMynt Org.Organization Address : Navi Mumbai, MaharashtraDepartment : Information TechnologyDates of OJT : From : 27/01/2026 To : 17/03/2026

Give a brief description of your OJT work (title and tasks for which you were responsible) :

Was your internship experience related to your major area of study ?

☐ Yes, to a large degree.

☐ Yes, to a slight degree.

☐ No, not related at all.

Indicate the degree to which you agree or disagree with the following statements.

This experience has	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
Given me the opportunity to explore a career field					
Allowed me to apply classroom theory to practice					
Helped me develop my decision making and problem-solving skills.					
Expanded my knowledge about the work world before permanent employment.					
Helped me develop my written and oral communication skills					
Provided a chance to use leadership skills (influence others, develop ideas with others, simulate decision making and action)					

This experience has	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
Expanded my sensitivity to the ethical implications of the work involved					
Made it possible for me to be more confident in new situations					
Expanded my sensitivity to the ethical implications of the work involved					
Made it possible for me to be more confident in new situations					
Given me a chance to improve my interpersonal skills					
Helped me learn to handle responsibility and use my time wisely					
Helped me discover new aspects of myself that I didn't know existed before					
Helped me develop new interest and abilities					
Helped me clarify my career goals					
Provided me with contacts which may lead to future employment					
Allowed me to acquire information and/or use equipment not available at my Institute					

In the Institute OJT program, faculty members are expected to be mentors for students.

Do you feel that your faculty coordinator served such a function? Why or why not?

The faculty coordinator provided necessary guidance during the OJT program by monitoring progress and offering general instructions. While most of the learning was self-driven, the support provided was helpful in completing the training successfully. More frequent interaction and detailed feedback could have further enhanced the overall learning experience.

How well were you able to accomplish the initial goals, tasks and new skills that were set down in your learning contract? In what ways were you able to take a new direction or expand beyond your contract? Why were some goals not accomplished adequately?

I was able to accomplish most of the initial goals and tasks outlined in my learning contract. I successfully applied my knowledge of full-stack development by working on real-world applications such as CRM and E-commerce systems. I also gained hands-on experience in API development, database integration, payment gateway implementation, and deployment using platforms like Vercel and Render, which helped me expand beyond the initial scope of learning.

In what areas did you most develop and improve?

During my OJT, I showed significant improvement in full-stack development and problem-solving skills. I enhanced my knowledge of React, Node.js, and MongoDB, and gained practical experience in building scalable web applications. I also improved my debugging skills, time management, and ability to handle real-world project requirements.

What has been the most significant accomplishment or satisfying moment of your OJT?

The most significant accomplishment during my OJT was successfully developing and deploying full-stack applications. Integrating the Razorpay payment gateway and deploying projects on platforms like Vercel and Render was a very satisfying experience, as it allowed me to build real-world, production-ready applications.

What did you dislike about the OJT?

One aspect I found challenging during the OJT was the limited level of continuous mentorship, which sometimes required extensive self-learning. However, this also helped me become more independent and improved my problem-solving abilities.

Considering your overall experience, how would you rate this OJT? (Circle one).

Satisfactory / Good / Excellent

Give suggestions as to how your OJT experience could have been improved. (Could you have handled added responsibility? Would you have liked more discussions with your professor concerning your OJT? Was closer supervision needed? Was more of an orientation required?)

The OJT experience could have been improved with more regular mentorship sessions and detailed feedback. A structured orientation at the beginning and more collaborative discussions would have enhanced the learning process. I also feel I could have taken on additional responsibilities to gain deeper practical exposure.
