

Research Methodology

Roll No.	Topic
01	Advance Machine Learning Techniques for Big Data Analysis
02	Data Analysis in Sports Analytics
04	Data Mining in Social Media
05	Fraud Detection Using Data Analytics
06	Sentiment Analysis in Customer Feedback
07	Predictive Analysis in Healthcare
08	Challenges of Data Quality & Cleaning in Big Data
09	Natural Language Processing for Text Analysis
10	Real Time Data Analysis in Internet of Things
11	Deep Learning for Image and Video Data Analysis
12	Data Visualization Techniques and Tools
13	Wireless Network Security
14	Secure Cloud Computing
15	Privacy Preserving Techniques
16	AI and Big Data for Climate Change Analysis
17	Blockchain for Data Security in Data Analysis
18	Role of Data Analysis in Financial Forecasting
